

£eith Chooses Steering Group

Skype Meeting 3-4 pm Wednesday 24 June

Present –Bruce, Caroline, Don, Douglas, Sally, Susan

Current Status / Follow Up with 2019/2020 groups

NE Foodbank –Douglas recently received an update report from Rev. Iain May on the work of NE Foodbank, which he will circulate to all.

He has not yet contacted 'Empty Kitchens, Full Hearts'. They were on TV last night, Sally 'shared' their video clip on the £eith Chooses Facebook page.

Dr. Bells – Don will get back to Sally Findlay with the technology support paper, and have a conversation with her at that point.

ALL

Agreed that we will have to agree wording for an email to go out to **all 10 current projects** next week, (confirming that their project is on course and informing them that we will contact them again 1st September?)

*

Bridging the Digital Divide paper Sally has drafted and circulated a paper giving guidance to charities and community groups about how to obtain appropriate technology for families. Useful comments received from SG and final draft now confirmed.

1. **ACTION: Bruce will format the papers and put into pdf format tonight.**
2. **ACTION: all SG members will email a copy to their 2 current projects asap**
3. **ACTION: Caroline will share the paper with members of her Locality Operational Group, meeting tomorrow, working on case by case support packages for identified individuals / families.**
4. **ACTION: Sally will put it out via website, and social media**
5. **ACTION: Caroline will forward the paper directly by email to groups that have had LC funding in the past (or all that have applied?)**

2020/2021

Scoping Paper

Sally has not yet finished drawing together the discussions we've already had about 2021, to form the basis of a first draft of a scoping paper. Covering mainly (1) Theme for 2021 (2) Methodology

ACTION: Sally will circulate first draft asap.

Agreed that we need a eye/ear catching 'tagline' or slogan to alert people to the fact that LC is ongoing. E.g. £eith Chooses - Staying Alive! ; £eith Chooses – Perseveres!

*

PB and CEC

Don had researched online and found no evidence of local authorities backing off use of PB. There is general support for 'community asset-based approach' which Caroline explained ss meaning valuing everything that the community has to offer, especially people.

PB Scotland

Don will try to contact David Reilly via Twitter (@CommunityDavid) as he did not reply to a text, to try and find out information from other authorities about the DPIA issue with Consul software (and ask for any other useful information). Could contact others at SCDC via info@scdc.org.uk

Meeting – Wednesday 1 July 3pm. By Skype (recurring meeting is set for 6 more weeks).

NB Caroline will not be available for most of July, so important that we move current matters forward asap,
